

1920. Build Array from Permutation

Sol 1.

```
class Solution(object):  
    def buildArray(self, nums):  
        index=nums  
        new_arr=[]  
        for i in range(0, len(nums)):  
            arr=nums  
            index=nums  
            new_arr.append(arr[index[i]])  
  
        return new_arr
```
